

Bid Now

Bid Now provides an easy way to bid on vehicles in a fully electronic auction 24 hours a day, 7 days a week.

Vehicles are listed in a silent, time-based auction that allows bids to be placed until the auction closing time is reached and bidding has stopped. The competitive environment ensures that vehicles are sold at the fair market price. Buyers are notified when they have been outbid by another buyer, and successful buyers are invoiced automatically by email.

Bid Now is perfect for buying insurance salvage vehicles. Insurers and purchasers both save on transport costs, as vehicle moves are kept to a minimum.

Bid Now Benefits

- Bid on vehicles around the country from wherever you are; in the office, at home or on the road using wireless Internet
- Review the quality of vehicles before you buy with digital photos, vehicle descriptions, and condition reports for cars and commercials
- Place maximum bids so Bid Now can bid on your behalf when you're not available at the closing time
- Add vehicles to your watchlist so you can track any other bids placed
- The bid history report provides full transparency, showing you how many bids each other bidder has placed
- Our fully integrated system gives immediate bid registration, sale, invoicing and reporting

- Full integration with Quick Search and Power Search make it really easy to find the stock you need
- Keep up to date with market prices
- Reduce travel expenses and eliminate lost travelling time
- Bid Now can also be used to offer a premium Buy Now price, meaning that buyers who require a guaranteed purchase can bypass the auction process and buy immediately
